IMPERIAL COMMUNITY COLLEGE DISTRICT BOARD POLICY/PROCEDURES SECTION – PARTICIPATORY GOVERNANCE STUDENT AFFAIRS PHILOSOPHY

Participatory governance is a decision-making process committed to the best interests of our students and our institution based upon participation of those affected by decisions in an environment of cooperation and trust.

One of the basic principles of academic governance in higher education is that effective decisions derive from the powers vested by law in governing boards, the faculty, staff, students, and administrators. Because these sources of information are vital to the development and implementation of sound educational policy, Imperial Valley College wishes to encourage, to the best extent possible the practice of participatory governance. Participatory governance recognizes and indeed is predicated on the sincere commitment on the part of all participants to our students, our professions, and our institution. It is a complex process of consultation that demands from faculty, staff, students, and administrators, a respect for divergent opinions, a sense of mutual trust, and a willingness to work together for the good of the instructional enterprise.

Participatory governance embraces the basic objective that all key parties of interest should be given the opportunity to participate jointly in developing recommendations and priorities for the well-being of the institution.
